

# Making an Autumn Leaf Book

In autumn, I like to collect different leaves and use them to make a leaf book.

First I trace each leaf's shape on a piece of paper. Then I color the leaf shape the same color as the autumn leaf.

When I have enough colorful drawings to make my leaf book, I tie the papers together with yarn.

You can do the same thing. Then you can show your family and friends all the leaves in your autumn leaf book.
